“INDEPENDENT” Stylographic Pen

ALL CUTS SHOW EXACT SIZES OF PENS

THIS PEN consists of a **hard rubber** holder, tapering to a **round point**, and writes as smoothly as a lead pencil. The **point** and **needle** of the pen are made of **platinum-iridium**—the hardest known non-corrosive metal, and are not affected by the action of any kind of ink.

The pen holds sufficient ink to write 10,000 words, and **DOES NOT LEAK OR BLOT**. As it makes a line of **uniform width** at all times, it is **UNEQUALED FOR RULING PURPOSES**. It is specially adapted for manifolding with carbon sheet. Better than gold or steel pens.

Pens Nos. 1, 2, 3 and 4 are furnished in neat paper boxes. Each pen is accompanied with full directions, filler and cleaner.
